

ISSUE POST #11: CLEANING

Cleaning Budget

The cleaning crew has held their bid steady at \$100 per clean for 2025. As a reminder 2 people clean for about 2 hours every other week. This is a very basic clean. There is an additional \$1000 in the budget to complete an annual deep clean and reseal the floors. That task was not completed in 2024 to save money. It is, however, scheduled for first quarter 2025 after the holiday party season. No new vendors were submitted by owners for consideration this year. As an additional reminder, please clean up after each use of the facilities including taking the trash to the dumpster and replacing the liner.
